SECURITY REGULATORS ASSOCIATION

EUROPEAN NUCLEAR SECURITY REGULATOR AUTHORITIES

TRANSPORT WORKING GROUP

ENSRA Nuclear Transport Working Group

- History and expectation
- Current agenda for the next meeting
- Future security sharing trends

Transport WG History

- 2018: the working group is set up
- Further meetings
 - January 2019
 - October 2019
 - May 2020

2021 Events

- WG meeting held in May 2021
- Further meetings are planned in October 2021 and in Spring 2022
- Issues under discussions
 - *Drones (Topic carried out by the UK)*
 - *Anti Tank (Topic carried out by Germany)*
 - *Cyber (Topic carried out by the UK)*
 - *Inspection (Topic carried out by France together with Finland)*
- Objective: provide inputs supported by ENSRA at the the IAEA Conference on Safety and Security of Transport of Nuclear and Radioactive Materials to be held in Vienna in December 2021.

Trends for future exchanges?

- Maintain a minimum of one WG meeting per year
- Continue to share experiences
- Topics identified to strengthen cooperation:
 - *Training experiences*
 - *Exchanges on transport Security Incidents (taking into account the confidentiality limits)*
 - *Security licensing & arrangements*
 - *Threat (taking into account the confidentiality limits)*
 - *Security inspection in process / at facility (departure and arrival)*
 - *Border crossing issues*
 - *Evaluation of transport security effectiveness*
 - *Transport Security Regulation sharing*
 - *Changes in national responsibilities on transport*
